## Where Our Children

FROM 42 TOWNS IN GREATER BOSTON

| Massachusetts |             |
|---------------|-------------|
| Baldwinsville | Mansfield   |
| Beverly       | Marblehead  |
| Brockton      | Marlboro    |
| Cochituate    | Methuen     |
| Colrain       | Middleboro  |
| Danvers       | New Bedford |
| E. Pepperell  | Newburyport |
| Gloucester    | No. Oxford  |
| Graniteville  | Peabody     |
| Haverhill     | Pittsfield  |
| Hudson        | Sherborn    |
| Hyannis       | So. Walpole |
| Lawrence      | Springfield |
| Lynn          | Stoughton   |
|               | Swampscott  |

THOSE who are sufficiently strong continue their regular school work at the Home under certified teachers, and are also taught by the occupational therapist to make attractive, useful articles. Members of the Wellesley Junior Service League and other volunteers assist in the preparation of materials and help the children with this work.

IN GREAT DEMAND every year are the two dozen graduates of the Trained Nurserymaids' School at the Home. They are placed in private families, and the work offers them secure futures.

Nurserymaids enjoy an introductory course

**HOLIDAYS** are enlivened by gay events and the children help make appropriate decorations. At Thanksgiving and Christmas particularly many gifts come from friends.

You are cordially invited to visit the Home on Forest Street in Wellesley Hills, adjacent to Babson Institute.

**THE** Convalescent Home welcomes your support. It is entirely separate from the Children's Hospital and receives no financial aid from it.

course in occupational therapy.

EVERY YEAR about 400 children, most of whom have known only crowded living conditions, street play, and suffering in hospitals are transported for leisurely health-building to the pleasant rolling acres of the Convalescent Home in Wellesley Hills.

They receive the skillful care of physicians, graduate nurses, and of the physio-therapist, if needed. With the number of patients limited to 75, boys and girls form friendships, and feel the family spirit that prevails.

Children are given convalescent care when acute illness is over and home conditions are inadequate. They are referred to us by hospitals.

*Very few patients pay the full rate.*
